Seyed Sajjad Zahedi Jahromi

Turin, Italy • +39 3517255215 • szahedi.mail@gmail.com• linkedin.com/in/seyed-sajjad-zahedi

Fullstack Developer

Experienced Full-Stack Developer with 10+ years of experience specializing in building scalable, data-intensive web applications using Angular, React.js, Node.js, C#, and cloud technologies. Contributing to design systems, and delivering performant, secure front-end solutions with a strong emphasis on UX/UI. Adept at cross-functional collaboration and translating complex requirements into robust, maintainable code.

WORK EXPERIENCE

Cefriel   2023 - Present
Software Developer   **Milan, Italy**

Full-Stack Developer proficient in React.js, Angular, and Node.js. Led the development and deployment of web applications while collaborating closely with cross-functional teams to deliver high-performance, scalable solutions.

- Key Projects: Contributed to multiple IoT and sustainability projects:
    * Massi: Optimized industrial sustainability using digital tools.
    * Socaf Servitization: Integrated IoT for predictive maintenance.
    * Logistics 4.0 OLOGER: Enhanced supply chain transparency for the automotive industry.
    * RoboTwin: Developed Angular UI for robot-assisted industrial painting.
    * DigiTwinGreen: Implemented Digital Twin technology for sustainability optimization.

Chrotge Pardaz Zagros   2018 - 2021
Software Engineer   **Iran**

As the Main full-stack developer, led the end-to-end design, development, and maintenance of complex web applications, delivering scalable, high-quality solutions aligned with both business objectives and user requirements.

- Designed and developed an online appointment system using Angular and ASP.NET Core, resulting in a 30% reduction in cancellations within the first year.
- Created an impactful mobile app using Ionic/Angular with a C# ASP.NET Core backend, achieving over 20,000 downloads and a 4.7/5 user rating.
- Full-Stack Development: Engineered web and mobile applications using Angular, Ionic, ASP.NET Core

Freelance Projects   2015 - 2018
Full-Stack Development   **Iran**

- Food Delivery App: Developed a mobile app for Bagro Shiraz.
- Regional News Reader: Built a news aggregation app for Akhbare Jahrom.
- Ad Agency Platform: Created a web and mobile app for Mobin Resaneh.

EDUCATION

Politecnico di Torino • M.S. in Computer Engineering   Turin, Italy • 2021 - 2024
Shahid Bahonar University of Kerman • B.S. in Computer Engineering   Kerman, Iran • 2011 - 2015
